# Why PVD ?

- **SUPERIOR TECHNOLOGY EQUALS A SUPERIOR QUALITY OF FINISH.**  
PVD coating's benefits are many. PVD can provide a lifetime of protection from daily cleaning, which adds durability and value to your product. Traditional brass, nickel, and gold finishes electroplating require a clear coat that degrades with time and can easily tarnish or corrode. PVD requires no clear top coats that fade or dull. It is four times harder than chrome which makes it corrosion and scratch-resistant. Our PVD coatings have been shown to surpass 1200 hours of neutral salt spray and over 150 hours of CASS on electroplated brass.
- **BENEFITS OF PVD TECHNOLOGY :**  
Superior Wear Resistance Superior Corrosion Resistance Superior Chemical Resistance Low Coefficient of Friction Excellent Adhesion Brilliant Decorative Finish High Hardness (2nd to Diamond) Uniform Coating Will not Chip, Tarnish or Fade Low Maintenance Environmentally Friendly Process.
